**ORDER**

This case is presently calendared for trial at the Court’s special trial session in Chicago, Illinois, beginning August 5, 2015. On February 11, 2015, respondent filed a motion to compel production of documents (index # 0223) which pertains to respondent’s first formal request for production. This request seeks documents related to the order management database (the VISTA system) used by Eaton’s electrical business. On April 21, 2015, petitioner filed a response to respondent’s motion to compel production of documents.

Petitioner produced 64 gigabytes of data (the equivalent of over 40 million pages of documents) in response to respondent’s request on February 13, 2015. Respondent contends that the request has not been completed. It is the Court’s understanding that the parties are still discussing the VISTA data discovery.

Upon due consideration, it is

ORDERED that, on or before May 11, 2015, the parties shall file a joint status report regarding the status of respondent’s first formal request for production. It is further

ORDERED that respondent’s motion to compel production of documents is held in abeyance until the Court has reviewed the above-referenced joint status report.

**(Signed) Kathleen Kerrigan  
 Judge**
